

# The PhD as a learning process

Dr. Estelle Phillips

SOAR PhD Seminar and Supervision Course  
KVL, Denmark  
November 2006

## Four statements task

- **First, on your own and without any discussion with anybody else**
  - place a tick at the appropriate point on the scale  
(3 can mean 'not sure', both, or the mid point)
- **Next, form your groups and compare your ratings on each statement to determine the amount of agreement/disagreement in your group.**
- **Then**
  - discuss your ratings to
  - discover reasons for differences
  - explore if you are willing to change your rating on any of the statements
  - see whether you can reach a group consensus on each statement
